

Julie Caron Remer

EXECUTIVE AND NEURODIVERSITY COACH

As a specialized coach for neurodivergent attorneys and an advocate for neurodiversity awareness, I bring practical insights and transformative strategies to law firms seeking to cultivate more inclusive environments. My presentations combine evidence-based approaches with real-world legal industry experience, delivering actionable frameworks that empower both neurodivergent attorneys and the firms that employ them.

Drawing from my extensive work with legal professionals and my own background as a neurodivergent attorney, I tailor each speaking engagement to address your organization's specific needs while challenging conventional thinking about productivity, talent management, and professional development in the legal sector.

Participants consistently describe my sessions and style as "impactful," "compassionate," and "highly informative." Whether addressing intimate leadership teams, internal coaches, or firm-wide audiences, I strive to create learning experiences that bridge the gap between neurodiversity awareness and practical implementation.

AUDIENCE TESTIMONIALS

Julie conducted a presentation on neurodiversity to our partners, associates and staff. Beyond being highly informative and consciousness raising, Julie opened up a meaningful discussion about supporting our neurodiverse colleagues, which prompted immediate action items. To say that Julie's presentation was well-received would be an understatement.
